

Marahrens Group expands in the Finnish onshore market with safety signage, personal safety and factory equipment

After successfully supplying the Finnish maritime industry for many years, the German signage manufacturer Marahrens Group expands its business also to the Finnish onshore markets by participating in the EuroSafety trade fair in Tampere from September 11-13, 2018 for the first time.

In **hall A at booth 424**, the wide-ranging product portfolio is exhibited by the Finnish team of Marahrens. The portfolio includes amongst others:

- **Safety and industrial signage according to ISO 7010**
- **Information and orientation signage (also tactile)**
- **Personal safety and factory equipment**
- **Individual signage**

Additionally, the company is introducing antimicrobial signage to the Finnish market, ensuring a reliable protection against the formation of dangerous microbes on signs and directly reducing the risk of disease transmission. The products are ideally suitable for the use in public areas with particularly high hygiene requirements and contact areas with frequently changing users, such as hospitals.

"We are very excited to take this step and present ourselves also on the Finnish onshore market. With our branch in Turku and the experience we have gained over the past years, we feel well prepared to be a reliable and fast partner for our current and future clients", says Managing Director Jan-Christian Hashagen, responsible for the safety business area within Marahrens Group.

About Marahrens Group:

Founded over 60 years ago, the Marahrens Group has developed into a company rich in tradition and innovative when it comes to signs of any kind. Approx. 200 employees at three locations meet all customer requirements. The production facilities at the headquarter offer all modern production techniques, which are extended by planning and design as well as installation. Our foreign locations provide fast and straightforward service as well as implementation from a single source. For further information, please visit www.marahrens.com
